About

I'm a software developer with 4 years of frontend experience, proficient in JavaScript, TypeScript, and frameworks like React and Angular.

Recently, I've expanded into backend development using TypeScript, Express.js, Drizzle ORM, PostgreSQL, and am learning Go.

Work Experience

Performics

2024 - 2024

Frontend Developer

- Developed automation scripts using Google Apps Script to integrate Google Analytics data with internal tools.

OneClass

2023 - 2024

Senior Frontend Developer

- Led the development of a Next.js project, leveraging Tailwind CSS and Shadcn/ui to accelerate UI component creation and streamline design processes.
- Maintained and refactored a React-based admin dashboard, improving performance and code maintainability.
- Created and maintained comprehensive technical documentation for the team.
- Mentoring junior engineers, facilitating their professional growth and skill development

Duotify Remote

2021 - 2023

Frontend Developer

- Led the development of an Angular 15+ project using Nx architecture for a government fund information platform.
- Acted as the frontend technical liaison, collaborating with stakeholders to define specifications and assess feasibility.

TPSoftware

2020 - 2021

Frontend Developer

- Built internal company systems with Vue 2+.
- Developed a bank's back-office system using Angular.
- Served as the presenter for Electron technology sharing sessions, fostering knowledge exchange within the team.

Education

National Taiwan University

2016 - 2020

Bachelor's Degrees in Psychology

Skills

JavaScript TypeScript Go PostgreSQL Express Gin React Angular Next
Angular Material Tailwind.css Shadcn/ui Rxjs Tanstack Query
